UAE Employment Visa · Notice Period: 30 Days

PROFESSIONAL SUMMARY

Web Developer & UI/UX Designer specializing in conversion-focused websites and landing pages for medical and aesthetic clinics. Delivered 7 websites and 50+ landing pages from Figma design to WordPress/Elementor Pro launch, including Arabic/English multilingual builds and a PageSpeed mobile score improvement from 60 to 94. Backed by a full-stack background in React, TypeScript, Node.js, and PostgreSQL, and hands-on experience with analytics and conversion tracking (GA4, GTM, Meta Pixel, Hotjar).

PROFESSIONAL EXPERIENCE

Web Developer & UI/UX Designer

Tareeq Al Amal Marketing Services · Dubai, UAE · Sep 2025 – Present

- Delivered 7 websites and 50+ landing pages, mainly for medical and aesthetic clinics, owning the work from Figma design through Elementor Pro development to launch.
- Raised Arya Medical Clinics' mobile PageSpeed Insights score from 60 to 94.
- Built lead-generation landing pages and Contact Form 7 forms, working with marketing and client teams on conversion-focused user experiences.
- Implemented GA4, Google Tag Manager, Meta Pixel, and Google Ads conversion tracking; used Hotjar and Microsoft Clarity for UX analysis.
- Delivered Arabic/English multilingual websites with Polylang and customized WordPress themes, templates, and PHP functionality.
- Built responsive, mobile-first pages with Elementor Pro, HTML5, CSS3, JavaScript, jQuery, and custom CSS.

Full-Stack Developer

B.M Enterprises Management · Alexandria, Egypt · Oct 2023 – Aug 2025

- Built features for a production HR/ERP web and mobile platform as part of a 12-member development team.
- Delivered employee-management modules (profiles, passports, visas, contracts, family records, assets, documents) plus attendance and leave-request workflows.
- Implemented role-based authorization and permissions with CASL.
- Developed web interfaces with React, TypeScript, Refine, Zustand, React Hook Form, Zod, and React Router, and mobile features with React Native and Expo.
- Integrated Supabase, PostgreSQL, REST APIs, Node.js, and Express.js; worked through Git/GitHub pull requests and code review.
